WOMEN ARE NOT FROM PLANET EARTH

“..and from Adam came Eve” – the Holy Bible

Women are not from planet Earth. This is one thing that continues to amaze me for years: the fact that so-called intellectuals cannot figure out that what we call women on this earth are TRULY an EXTRATERESTRIAL SPECIES. Now, I know what you're thinking – the honorable djhives hath lost his mind – AGAIN... but listen to me for one n*gger-moment and you'll realize the truth I'm about to pop off. And then again, when have I ever lead you wrong? As

the years go by, and the generations grow older, the same old 'intelects' and 'researchers' and 'scientists' and 'PhDummies' keep missing the core secrets of our universe and reality. In prior volumes of this fine series I have taught you the REAL TRUTH about eclipse-tricks, obelisks, debt-notes, war, college, slaving, hustling, freedom, the matrix and the beneveloncy that rule the cloven nappy-haired sheep-people also known as 'the masses' – or 'dum-asses' if you will.

I digress, the point of this prototypical narsassictic self hand-job of an opening is to remind you of the breadth of my child geniusness. It is tits, a bouniful, full, swollen, milky, teat with erect nipples. Where was I? Oh yes. The subject of this volume. And that is – the creature which all men desire: women. However I am not going to explain the same old story repeated by the supposed 'intelects' and 'professors' and 'forctors' over the centuries. I'm going to keep it GHETTO, just like you all expect of me. Imma break this sh*t off in street language so you can all come away from this literary magnificence as MEN – real m*therf*cking MEN.

And afterall, that seems to be the problem with dum-asses today right. I mean lets get real. Look at the American male... a fat, pale, hooven aobination, brimming with white-boi, honkey insecurity. Gone are the days of the proud American male – replaced by a debt-enslvaed, emsaculated, sackectomied, pseudo-male, addicted to soy yum-yums and on-demand fools-

ball programs. The white-american male, spending 90% of his free time watching 7 foot tall mandingo n*ggers in tights, fondling each other and slapping each others balls around willy nilly and getting all sweaty. Yet, as the American honk exclaims, “no homo brah”. He watches black-men, built like pornstars, each night engaging in not-so-subtle n*gger homoeroticism. And then preclaims to be 'manly'. Of course we all know this is a mere sign of his INSECURITY in his own manhood – or lacktherof. It can be verified in his wanton obsession with large vehciles – the typical american white-boy generally gets a boner over a large black imposing pickup-truck with 'novelty' rubber-balls hagning of the back of it.

Let's keep this sh*t real. “BIG AND BLACK” is what the honkey is going after here. You know – big black things are scary right? And they get the p*ssy wet right? Sad animals. The male insecurity knows no bounds. Homoeritic telivised tarzan-negro 'sports'-jacking, large black vehicles, and calling everything else 'gay' is their method of operation. But what's really going on here? What most 'intelects' see as a harmless affinity of 'games' and 'vehicles' is truly a cry for an explanation of lack of genetic masculinity. So what can be done?

Well – first is to realize WHY we have this matrix filled with angry, sexless, virginal, soy-infested, BOYS in the first place. And to state it bluntly: they s*ck with WOMEN. And THAT my children is the topic of this divine volume...

Now – before we begin ANYTHING there is

something you must understand – and it may be a bit much for you to readily accept. But TRUST in father-hives celestial, galactic, esoteric knowledge here. There is no soft way to break it off to you... Women are an EXTRATARESTRIAL SPECIES. Take a moment and swallow that red-pill for a moment. Compose your thoughts and emotions, now climb up on father hives lap and nestle up closely to my warm shaggy beard and allow me to break dat azz with somethin' propa. Behold: the human female is the ONLY--- and I mean ONLY “mammal” to have a CLITORIS on the OUTSIDE of her body. ALL OTHER higher mammals have their clitoris INSIDE their vagina.

This is revolutionary because, if you look at the male and female anatomy LOGICALLY you will notice an oddity. First, the male penis, which you are all familiar with has a long shaft and a tip or head which is very sensitive, during climax, the seed enters the females vadge and causes pregnancy. The male, sticks his rod inside the corridor of the vagina and, objectively speaking the back and forth rhythmic action of thrusting inside the poontang cause the man to climax and thus ejaculate and reproduce. HOWEVER, the 'human' female is quite peculiar.

She has a vadge, yet – her ability to climax is reserved for her CLITORIS ONLY. Now – don't give me that “g-spot” ish – it doesn't exist. The clitty is the hot-spot. The door-bell. The rub-up-on some furniture orgasm spot. Every woman knows this – and every ILLUMINATED man

knows this as well. Yet- for 'reasons unknown' the female 'human' clitoris is on the OUTSIDE of the vagina. Doth this not seem ILLOGICAL? Think about it – if you were logically designing humans, wouldnt you have the clitoris INSIDE the vagde so as intercourse is happening the in-and-out action would stimulate her clitoris and allow her to climax relative to the male? Instead in 'human' intercourse, the man thrusts about the puntinany like a wild-ape while the lonesome clitoris sits there, – all alone... swollen..ready for action – yet MISSING on some LOGICAL form of sex-related stimulation. So what do we observe instead during human copulation? We observe a rather BIZZARE and dis-connected DIGITAL (finger) stimpulation of the females vagina DURING intercourse.

She reaches down..makes those little circles and figure-8's and busts her nut. If she doesnt do it – the man does it. Again with his cloven fingers. The penis, in all its supposed glory – is uncerimouniously left out of the eqaution of inducing a genuine female climax. WHAAT THE FUDGE!/? Now there are some females that 'claim' to climax for 'simply intercourse' but these women are like n*ggers swimming in the Olympics – they dont exist. In REALTY, the 'giny ONLY gets-off with some form of EXTERNAL finger stimulation by the male or female. The penis, hath NOTHING to do with it. EVER.

The secret here is that women, as we know them on Earth, are not from this planet. And their EXTERNAL clitoris proves this fact. What

is most interesting about this 'earthly' woman is her misplaced happy-spot – it is clearly on the outside, perfectly separated from contact with the penile functions of sexual shenanigans. Ergo, the FIRST step in understanding WOMEN here on planet earth – and the primary reason for this opening chapter --- the FIRST step in understanding women, is to FIRST understand that they ARE NOT THE SAME SPECIES AS YOU – AT ALL. Now you've all heard the old-addage 'men are from Mars, and women are from Venus'. This is metaphorical and not allegorical. What I am breaking you off to is the TRUTH that there is a REAL species difference between the two sexes with CLEAR extra-planetary origins. Think for a moment about the so-called 'missing link' of 'modern sheeple evolutionary theory'... you know what I'm talking about – how 'scientists' claim that evolution is a process of a constant improvement from one generation to the next.

Yet, according to this cat-brained ideology, there should be an observable 'past' or 'lesser' evolutionary 'relative' that can be verified either by living evidence or buried or fossilized bone evidence. Nearly EVERY other organism has a verifiable 'evolutionary predecessor' – ie the version they 'evolved from'. Nearly every thing on earth has this 'cousin' EXCEPT the 'human being'. Here, the 'scientists' program the sheeple with the ultimate LIE – and that is that there is a so-called 'missing link' and UNEXPLANABLE 'missing ape' that humans SUPPOSEDLY evolved from.

This absolute baboonery is exacerbated by the fact that it makes no f*cking logical sense. The assinine program flatulates: “Evolution is real. There is evidence of it in every organism on earth----except....well...except with humans”.

SHENANIGANS! BOLD FACED

SHENANIGANS! What type of 25cent punk sucker-punch bat-barf ish is this? **COME ON!** The supposed evolutionary trail of humans skips a few 'evolutionary changes' and goes back to the extinct Neanderthal man – or whatever its called which seems to be illogical as the 'last major evolutionary' change to man.

Thus we gotta bit of stinky-stinky BS goin on. And the human FEMALE is exactly where this “MISSING LINK” resides. And thanks to the honorable sweet daddy father hives you may now call it “the FOUND link”. Lord magical hath FOUND the wiley and elusive 'missing link' – **AND HER NAME IS “WOMAN”**.

IF you look at the theory of evolution LOGICALLY, it is clear to see that woman is the evolutionary PREDECESSOR to man. The cloven 'biologists' have made it no secret that in the womb everyone is first a 'female'. Then based on 'genetic disposition' the embryo will develop into a male OR remain a female. Everyone starts off with the begning of a clitty and a glory-hole, but if they develop a “Y” chromosome, their clitoris changes to a penis and their mudflaps fuse into a ballcase.

Ergo, the 'missing-link' of man IS she-man. And the KEY to understanding women is to first understand this FACT. Because, without this

knowledge women will seem 'confusing' and 'mysterious' – and like most cattle out there in the matrix, they FAIL with women due to their fundamental ignorance of their true genetic origins. They aim to please women with their PENISES without realizing that the genetic opposite of penis is a clitoris – NOT a vagina cannal. Now – fittingly – this confuses the sheeple man because his own logic realizes that insemination and thus pregnancy and thus procreation take place through vaginal intercourse. And this is true.

However he mistakes the pleasure zone of a woman for the MISTAKEN OPPOSITE of his pleasure-zone. This is where white-boy insecurity problem NUMERO UNO begins, for the un-enlightened man is perpetually “OFF COURSE” with his sexcapades, and never manages to 'connect' with the female on an objective and consistent basis. His inconsistency with pleasing a woman sexually causes his insecurities to spiral out of control... soon he begins to entertain the idea of penis-pills, balloons, viagra, Ford F-150s, college educations, doctoral degrees, large vinyl McMansions, 'investments', and other passive, subconscious ways of avenging his internal 'shortcomings'. But these shortcomings are misguided, for the true nature of the insecurity comes from ignoring the female fun-spot and being INSENSITIVE that the PENIS is the primary bringer of female sexual happy-times.

Now let me rewind the tape a bit – because I think the geniusness I just fresh-baked for you

all didn't quite resonate in between your triangulated whiskered cat-ears fully. Check the fresh remix: Evolution is “SEX” SPECIFIC. Not sex like in shenanigans.. sex as in male or female. The reason why the 'missing link' goes 'missing' is because evolution happens on a basis of sex (gender). In other words, when a species 'evolves' it CHANGES ITS “SEX”. Think fools: the purpose of intercourse between 'opposite sexes' is to progress evolution.

Right? Man and women stray from their immediate family and siblings (incest) and 'branch out' to reproduce with the opposite sex thus 'evolving' their own offspring. But how can evolution be 'verified'? Stupid little changes in the color of ones skin? Changes in height? Stature? Bone structure? The development of wings? An extra stomach? All subjective! The ONLY way to VERIFY whether or not something has EVOLVED, OBJECTIVELY is through its ability to HAVE SEX and reproduce. The “missing-link” of man is “female”.

Men evolved FROM females. So what or who did females evolve from? Well... “men” of course. You see my children, 'evolution' is in TRUTH a perpetual 'improvement' that creates a different 'sex'. In our current state of reality women have not yet evolved to be men, and men have not yet evolved to be women. But alas, it is happening – and this is why men and women are two different species. One is 'more evolved' (male) and the other is 'less evolved' (female). What does this mean to you – the presumably male reader of this fine book? It means – quite

simply – to understand the female, you must first understand that you are dealing with a less-evolved male, complete with a less-evolved penis called a clitoris, and a less-evolved nutsack called a vagina. To please the female is to please the “MALE” in fe-MALE. Homoerotic? Perhaps. Make your penis feel worthless? To some. Strange and alien? Indeed.

Yet this is the TRUTH of the matter. You are attracted to, and dealing with extraterrestrial males with microscopic penises that have no pleasurable use for your male penis other than to become impregnated. Your penis is therefore vitrually WORTHLESS as a mechanism of sexual plesure to the fe-MALE. To understand this is the first step to repairing your damaged, confused, misguided male ego. And the begning to your enlightenment and sexual freedom as it relates to fe-Males. They are called fe-MALES – 'hetorosexuality' is indeed a quasi-homosexual relationship. Finally, the truth will be told about men and women.....tonight...

MEN ARE WEAK WITHOUT WOMEN

“Woman's world is her husband, her family, her children and her home. We do not find it right when she presses into the world of men.” – Adolph Hitler

Men can do less than they realize... MUCH less. In fact this is such an innate part of human nature and human sexuality, yet I cannot think of one 'intellect', 'factor', or publication that addresses the inherent WEAKNESSES of men. Now I'm not talking about how 'women are weak

and men are strong' – that's been said a trillion times. Nor am I talking about the so-called 'modern' 'independent woman' with her enslaved psuedo birth-control biologically 'career' and 'independence'. Women are weak – you've all heard me preach about this many times in the past.
