

What is technology?

The wonders of technology

The definition of technology

- Technology is something that is man made, it also makes peoples lives easier.
- If something you use isn't manmade it really isn't technology

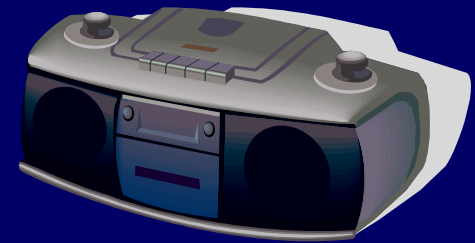

!♣An awkward technology♣!

- Some technologies we use everyday don't always have fancy buttons, such as the pencil it was manmade and we use it everyday.

Everyday technologies

- These are some technologies that we use everyday. We have here a television, two computers, a pencil, and a boombox.

THE END♣!!!!
